A refundable deposit is required to establish service. Deposits are refundable after one year of service with no more than one late fee and no service interruptions. Please note; other charges and fees are applicable. The deposit requirement can be satisfied in three ways; by providing a letter of credit from another utility showing one (1) year of continuous service with no delinquencies or by paying a non-refundable fee of \$2.00 for a credit check. Service activation fees will be billed to your account and will reflect on your first billing. Fees and service charges vary depending on the scope of the service requested. Please ensure our field representatives have access to the meter(s) at this location. If we are unable to access the meter(s) due to locked gates, dogs or any other circumstances, an additional fee of \$27.00 will be billed to the account and service will not be connected until access is granted. Access must be provided for turn on of utilities from 7:30 am to 5:00 pm on the date of request. _____
